TUK MODHB Homepage

# Module-Pool WIW-BWLtQ-ET-MPOOL-7

Field of study: Electrical Engineering

## Basedata

Level [7] Master (Advanced)

Lifecycle-State [NORM] Active

### Notice

Modules amounting to 22 CP from up to two areas of the following specialisation fields of the Master's programme in Electrical Engineering and Information Technology as well as the prerequisite Bachelor's modules are to be selected, unless they have already been included in the Bachelor's programme:

- Automation Engineering (AUT)
- Power engineering (ENT)
- Embedded Systems (ESY)
- Integrated Systems (INS)
- Communication technology (COM)
- Mechatronics (MET)

## Modules in the Pool

Number	Name	Semester orientation	CP
--------	------	----------------------	----

The pool is empty.
